Stockbridge, GA 30281

Dear Mike Randall, I would like to thank you and your staff for the professional and personal assistance that you provided by helping me file my claim for VA disability compensation. As a recent retiree with a unique situation of being Army and conducting my final transition at an Air Force Base, I was not afforded accurate information and the opportunity to file my claim with a VA representative prior to separating from the service. Finally, after filing my claim with the regional VA office, I thought that my claim was in the system and four months later I was informed that my claim was cancelled with no notification or explanation. After meeting with you and Share The Dream Foundation I refilled my claim and received a letter two weeks later confirming that my claim was being worked. Thanks again and I'm truly grateful for your organization and for making dreams a reality!

Sincerely,

*Charles E. Jenkins*
